Voices of N/Pre

Beyondia Family Picnic

May 31st was the day of the Parent-Child picnic for N/Pre. Even though the rain forced the picnic indoors, it didn't stop the kids and their parents from enjoying the many fun activities like the obstacle course, bug hunting game, and all the yummy food.

Creepy Crawlies

Spring is a time for bugs and kids love to learn all about them. N/Pre were shown the beetle larva from the Kinder room. They watched closely as the baby beetles buried themselves in the dirt before sitting down to make an awesome ant craft.

Kidult Day

We had a really fun fashion day in May. It was all about kid dressing up as adults while the adults dressed up like kids. The N/Pre kids came in some really cute outfits and spent the day having fun and playing game with their friends and teachers.

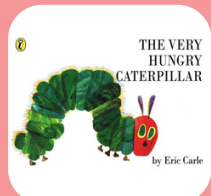

Book Recommendation

Mama, Do You Love Me?

An adorable little story with some beautiful and unique art all about how endless a parent's love for their child is.

The Very Hungry Caterpillar

A classic book about how a very hungry caterpillar has to eat a lot of food before turning into a beautiful butterfly.

Upcoming Events

Kinder Memories

Mother's Day

In Japan, May 11th is Mother's Day. It is a day where we show some love to the person who does so much for us. The K1 class made some origami flowers and used them to make some beautiful cards. K2 and K3 painted and cut card into the shape of hearts and wrapped them all in wool to create lovely bouquets for their mums. A thoughtful gift from some thoughtful kids.

K3 Yatasugatake Camp

For two days, the K3 class went on an overnight camp with the K3 classes from Meguro and Ikebukuro. Starting their journey very early in the morning. They travelled to the top of the mountain in a gondola. Once they arrived, they got to go mountain trekking, compost making, asparagus harvesting, and so much more. In the end, everyone was tired but happy to have gone.

IB Thinking

The five Senses

As part of the IB theme "Who We Are," the K2 and K3 classes learned about the five senses: smell, touch, taste, sight, and hearing. The kids used different objects to experience each sense. They used their eyes to look through a kaleidoscope, they used their hands to feel the fluff on a stuffed toy, and then they then answered lots of questions - all while having fun.

World Bee Day

May 20th was World Bee Day. To show appreciation for our honey making friends, K1 had a lesson all about them. They had a lot of fun learning about how they live in hives and have a queen who is in charge of all the other bees. It was great seeing them learn that bees gathered pollen and nectar from flowers and made honey with them. In the end, they used crepe paper, crayons and glue to make lots of awesome bee crafts.

Summer is Here!

As May turned to June, the K1 class started working on the theme How the World Works. This is a theme we will do all year. To start this theme, they learned about the changing seasons and how summer was on it's way. They discussed the different kinds of things they like doing while it's sunny like going to the beach and what kind of clothes they wear in the summer heat.
