

# BEYONDIA NEWS!

Beyondia  
International School  
KASHIWANOHA

Hello, Beyondia Parents. A rainy themed newsletter full of all the fun and excitement of June.

## Voices of N/Pre

### Fashion Show

For one day, Beyondia transformed into a catwalk for the kids to show off their best outfits. The N/Pre classes dressed to impress, wearing colourful dresses, summer attire, and anything that made them stand out from the crowd.

### Father's Day

For Father's Day, our little ones made cute medals with colorful paint stamps and crayon-decorated ribbons. They loved the feel of the stamps and watching the colors mix together. They used star stickers to add some finishing touches.

### The Rainy Season

The N/Pre classes created adorable rain-themed mobiles this month using bubble wrap stamps for rain and cotton for clouds. They enjoyed the textures of the bubble wrap and fluffy feel of the cotton while crafting their amazing art.

### Book Recommendation

**Rain, Rain, Go Away!**  
A bunch of kids are stuck in the rain and want nothing more than for it to stop so they can play.

**Rose Explores the Water Cycle.**  
An amazing story of a little girl and her friends learning about how rain is made using basic but fun experiments that anyone can do.

### Upcoming Events

- July 7<sup>th</sup> - Tanabata Festival
- July 19<sup>th</sup> - Info Session & Lounge
- July 21<sup>st</sup> - Marine Day
- July 28<sup>th</sup> - K1 Cooking Class
- July 29<sup>th</sup> - K2/K3 Cooking Class

# Kinder Memories

## K1 Field Trip

Before the weather became too hot, the K1 class spent a lovely day in Kashiwanoha park. Once they arrived there, they took a relaxing stroll through the rose garden before heading to a grassy area to play. They blew bubble using the bubble wands they made and played some games of tag with the teachers. In the end, we all sat down to eat our lunch on the grass and enjoy the beautiful sunshine.

## Open School

For a week in Mid-July, we happily opened our doors for our parents to come and observe some of the daily activities their kids do every week. It was great for them to be able to experience a day in the life of their kids and see with their own eyes what they do in classes like Chiiku, Rhythmique, Japanese Inquiry, and English Inquiry. We hope they enjoyed their time with us and had a bit of fun as well.

## IB Thinking

### How to Care for Teeth

The K2 and K3 classes were visited by the dentist this month. They were here to teach them the importance of looking after their teeth. Each kid was given a candy tablet that turned their teeth and tongues pink to help them see where to brush. They were taught the correct way to brush their teeth in the morning and evening. This lesson linked to the theme of "Who We Are" as it focused on parts of the body and how to care for them.

### Midsummer Fun

As a part of the theme "How the World Works" the K1 class learned all about the Swedish festival of Midsummer. They made some flower crowns out of origami paper and danced to traditional songs around a large pole decorated in flowers and leaves called a Midsommarstang. The kids loved doing the Little Frog Dance around the maypole with their friends and parents.

### Fashion Show

This month, the whole school came dressed up in their favourite clothes to strut their stuff on the catwalk. Professional photographers and modeling coached came to make this as authentic an experience as possible. Each kid was given a chance to walk down a red carpet catwalk and show off their awesome poses in front of the camera and their friends. Having the kids choose their own style really helps them understand who they are as people.
